Krishna Public School International. New Raipur Chhattisgarh
| Apr 2019 - Jun 2020

PROJECTS

PORTFOLIO:

I have made my own portfolio, its hosted on Github.

<https://dhamejanishivam.github.io/portfolio/>

Heart Disease Predictor:

I made a machine learning model that takes several data inputs of your symptoms and predict the chances of you having or getting a heart disease in future

J.A.R.V.I.S:

I made my own JARVIS, voice assistant that can do many of my task like playing music, reading new mails, checking for notifications, reminding me to take frequent brakes, learning my music taste, and making some of my basic work automated etc...
